Public Sociology Michael Burawoy,2021-09-08 Michael Burawoy has helped to reshape the theory and practice of sociology across the Western world Public Sociology is his most thoroughgoing attempt to explore what a truly committed engaged sociology should look like in the twenty first century Burawoy looks back on the defining moments of his intellectual journey exploring his pivotal early experiences as a researcher such as his fieldwork in a Zambian copper mine and a Chicago factory He recounts his time as a graduate and professor during the ideological ferment in sociology departments of the 1970s and explores how his experiences intersected with a changing political and intellectual world up to the present Recalling Max Weber Burawoy argues that sociology is much more than just a discipline it is a vocation to be practiced everywhere and by everyone

Practical Research Paul D. Leedy,Jeanne Ellis Ormrod,2013-07-30 For undergraduate or graduate courses that include planning conducting and evaluating research A do it yourself understand it yourself manual designed to help students understand the fundamental structure of research and the methodical process that leads to valid reliable results Written in uncommonly engaging and elegant prose this text guides the reader step by step from the selection of a problem through the process of conducting authentic research to the preparation of a completed report with practical suggestions based on a solid theoretical framework and sound pedagogy Suitable as the core text in any introductory research course or even for self instruction this text will show students two things 1 that quality research demands planning and design and 2 how their own research projects can be executed effectively and professionally

Dead Reckoning Diane Vaughan,2021-09-30 Vaughan unveils the complicated and high pressure world of air traffic controllers as they navigate technology and political and public climates and shows how they keep the skies so safe When two airplanes were flown into the World Trade Center towers on September 11 2001 Americans watched in uncomprehending shock as first responders struggled to react to the situation on the ground Congruently another remarkable and heroic feat was taking place in the air more than six hundred and fifty air traffic control facilities across the country coordinated their efforts to ground four thousand flights in just two hours an achievement all the more impressive considering the unprecedented nature of the task In *Dead Reckoning* Diane Vaughan explores the complex work of air traffic controllers work that is built upon a close relationship between human organizational systems and technology and is remarkably safe given the high level of risk Vaughan observed the distinct skill sets of air traffic controllers and the ways their workplaces changed to adapt to technological developments and public and political pressures She chronicles the ways these forces affected their jobs from their relationships with one another and the layouts of their workspace to their understanding of their job and its place in society The result is a nuanced and engaging look at an essential role that demands great coordination collaboration and focus a role that technology will likely never be able to replace Even as the book conveys warnings about complex systems and the liabilities of technological and organizational innovation it shows the kinds of problem solving solutions that evolved over time and the importance of people
