Essentials of Public Health Management L. Fleming Fallon (Jr.), Eric Zgodzinski, 2009
In the wake of 9/11, effective management of public health departments has become vitally important as these organizations and agencies will be in the front line of any bioterror or chemical attack. Written by practitioners for other practitioners and students who want to pursue public health careers, this book provides a practical, non-theoretical approach useful for the hands-on management of these complex organizations and their daily operations. With accessible writing and many real-life applications, this concise new volume serves departments at all levels: federal, state, city, and county.

Leading Systems Change in Public Health Kristina Y. Risley, DrPH, CPCC, Christina R. Welter, DrPH, MPH, Grace Castillo, MPH, Brian C. Castrucci, DrPH, MA, 2021-12-04
The authors bring a passion for social justice, equity, and inclusivity to the dialogue about changing the unjust systems that create disparate population health outcomes. Doody's Review Service 2022. Suzan C. Ulrich, DrPH, MSN, MN, RN, CNM, FACNM, Resurrection University.
Leading Systems Change in Public Health: A Field Guide for Practitioners is the first resource written by public health professionals for public health professionals on how to improve public health by utilizing a systems change lens. Edited by leaders from the de Beaumont Foundation and the University of Illinois Chicago School of Public Health, with chapters written by a diverse array of public health leaders, the book provides an evidence-based framework with practical strategies, processes, and tools for enacting meaningful change. Complete with engaging stories and tips to illustrate concepts in action, this book is the essential guide for current and future public health leaders working within and across individual, interpersonal, organizational, cross-sector, and community levels. The book addresses subjects such as change, leadership, health equity, racial justice, power sharing, and readiness for change. It addresses best practices for enacting change at different levels, including at the personal, interpersonal, organizational, and team or cross-sector level, while describing the factors, processes, skills, and tools required for leading complex change. It not only covers the process of leading systems change but also the importance of community organizing and coalition building, identifying a shared understanding of the problem, how to leverage the lessons of implementation science, and how to understand the relationship between sustainability and public health. Practical examples and stories highlight challenges and opportunities, systems change in action, and the importance of crisis leadership, including lessons learned from the COVID-19 pandemic.
Key Features:
Enables practitioners to improve public health by utilizing a systems change approach.
Applies systems change strategies to help discover solutions for improved community health equity and racial justice.
Integrates practical public health examples and stories from innovative leaders in the field.
Includes tools for how to implement internal processes that generate creative and effective system change leadership.

Leadership for Public Health James Holsinger, 2018 Instructor Resources Test bank PowerPoint slides and answer guides to discussion questions Today's rapidly evolving public health arena urgently needs effective leaders. In fact, this need is so pressing that the major public health associations have come together to call for a new emphasis on leadership development in the public health workforce. *Leadership for Public Health: Theory and Practice* aims to answer this call. The book is based on the premise that skilled public health leaders consider people their most valuable resource and are prepared to lead those people through a wide variety of situations. Acknowledging that effective leadership cannot rely on a one-size-fits-all approach, the authors challenge readers to try out a number of leadership models and theories, determine which are the best fit for their public health practice, and apply the key principles in their day-to-day work. The book matches its detailed discussion of leadership theory with examples and cases specific to the field of public health. Written primarily for graduate-level public health students, it is also useful for public health leadership institutes and public health practitioners looking to develop their leadership skills. The book is structured in three parts: *The Basis for Effective Public Health Practice*, which provides an overview of leadership and professionalism in today's public health landscape; *Leadership Theories and Concepts*, which explores the models of leadership most likely to aid aspiring leaders; and *The Effective Practice of Public Health Leadership*, which further develops the theories and concepts as they apply to public health. *Leadership for Public Health: Theory and Practice* presents a practical framework for leaders at any public health organization, regardless of size or type, and at any level in the organizational hierarchy. Ultimately, the book aims to develop the leadership necessary to galvanize organizations and communities in transformational change to improve the public's health.

Global Health Leadership and Management William H. Foege, Nils M.P. Daulaire, Robert E. Black, Clarence E. Pearson, 2005-05-06 Written by an international panel of distinguished global health experts, this book distills valuable lessons from a wide variety of successful health programs that have been implemented around the world. *Global Health Leadership and Management* gives practical suggestions for enhancing and developing the essential skills of leadership, management, communication, and project planning for health care leaders. The book will assist health leaders to work well within their communities and effectively plan, direct, implement, and evaluate effective programs and activities. *Global Health Leadership and Management* outlines and describes such core competencies as identifying challenges and developing and managing policy; developing strategies, pathways, and solutions; creating networks and partnerships; and planning for change. Learning from experience to build a generation of leaders; leading and managing teams by recognizing and celebrating success.

Bringing Leadership to Life in Health: LEADS in a Caring Environment Graham Dickson, Bill Tholl, 2014-01-13 Globally the health sector faces significant demands for reform and improvement to meet the needs of the 21st Century To achieve that goal highly sophisticated and capable leaders are required across all dimensions of the health system This book describes the key challenges that demand reform why better leadership is the source code for better system performance and the issues that stand in the way of getting that leadership It includes substantive treatment of the modern democratic challenges that healthcare leaders face and the essence of what it means to be a leader in today's world The essence of leadership itself is described and the case made for the need for people to use the workplace as the place to develop leadership rather than relying solely on formal programs It will also outline a self directed learning process that any individual leader citizen clinician or senior executive can use to develop their own leadership capability and thus become more active as a leader of change This book addresses the need for leaders to think on a system wide scale A second part of the book focuses primarily on the Canadian Health system and LEADS in a Caring Environment capabilities framework and the link between LEADS and frameworks in Australia and the UK LEADS was developed through a partnership between members of the Healthcare Leaders Association of British Columbia and the Canadian College of Health Leaders the Canadian Health Leadership Network and Royal Roads University Currently it is stewarded by a not for profit collaboration that has endorsed LEADS as an evidence informed set of national expectations for Canadian health leaders LEADS has been endorsed by many health organizations in almost all provinces in Canada as a foundation for their talent management programs in leadership development and succession planning The book will address the research foundations for the LEADS framework how it was developed the framework's contents its congruence with other national frameworks and how LEADS can be used as a model to envisage and plan change
